Tom Henry

As I write today, we have in our "*Learn to be an Electrician*" program over 2,100 students enrolled from 50 different states and other countries; Turks, Caicos, Virgin Islands, England, Bernuda, West Indies, Canada, Iraq, Africa, Guam, and the Philippines.

I personally went through five electrical apprentice programs that offered either classroom or home study. After completing the programs, I knew I could make a program better than those offered. I felt more emphasis should be implemented into the cognitive (why) aspect rather than the psychomotor (how).

I've written over 90 electrical books and taught over 20,000 electricians over the 64 years in the electrical field, but what I'm most proud of is my employees that made Code Electrical Classes the leader in electrical education throughout the world.

From Left to right, Tim Henry, Vice President 33 years, John Abbey, Operations Manager 21 years, Charles Swain, Shipping Manager 21 years, Levi Jumawid, Operations Assistant 15 years.

When calling during our working hours shown below, *your call will be answered by an employee* not a machine, so there is no press, press, press, press.....

Tom Henry Books

NEW BOOKS

Calculations of the Fundamental Laws of Electricity

By Tom Henry

DIRECT CURRENT ALTERNATING

Chapters with exams: Water Analogy, Ohm's Law, Resistance, Energy -Power - Watts, AC - DC, Series Circuits, Parallel Circuits, Installing AC Circuits.

I felt the need to write this book to share my experiences of 60 years in the electrical industry and the changes I personally have witnessed in the electrical exam passing rate. A student must start at the begining with the fundamental laws of electricity, *there is no shortcut*.

ITEM # 1001 Fundamentals of Electricity $29.00

Electrical Connection Workbook

By Tom Henry

8 Chapters with an exam on each chapter. A final exam will test your knowledge on the 8 chapters.

It has been estimated that **90%** of electrical **failures** occur at **connections.** How many of those connections would never have failed if properly tightened in the first place? It's amazing how many electrical failures are caused by the lack of understanding the **fundamental** concepts of making a correct connection.

One must be educated beyond the average in the law and the rules.

ITEM #1006 Electrical Connections..$29

The Supreme Workbook For The Electrical Exam

THIS BOOK PUTS THE WORDS INTO PIC

44 TESTS FROM ACTUAL CLOSED BOOK EXAM QUESTIONS WITH OVER 700 QUESTIONS WITH

By Tom Henry

You will learn how to "Understand Questions" and learn how the choice of answer is determined by a detailed step by step explanation **using Illustrations as no other book has ever attemped, this book is paramount to all the others!** *This book teaches how to think, not what to think.*

ITEM #1005 The Supreme Workbook $29

The Commercial Electrician Workbook

By Tom Henry
Tim Henry

EIGHT CHAPTERS WITH EXAMS and ANSWERS

Commercial Wiring

This book focuses on the three-phase electrical requirements and distribution for a typical commercial facility, including load requirements, and the calculations necessary to create a successful electrical system.

- •Learn how to design electrical systems
- •Understanding grounding and why you ground a system
- •Conduit installation and bending
- •Plan Reading
- •Calculate fault currents
- •Three-phase transformer systems, etc, etc.....

ITEM #1002 The Commercial Electrician Workbook EIGHT CHAPTERS with EXAMS -...$39

NEW BOOKS

ENCYCLOPEDIA for an Electrician

By Tom Henry

UNDERSTANDING THE WORDS

Exams follow each chapter with over 450 questions & answers

Two Volumes over 500 pages

ENCYCLOPEDIA, a work that contains information and treats comprehensively a particular branch of knowledge arranged by subject.

Exams follow each chapter with over 450 questions & answers

ITEM #933 *Encylopedia* (two books)**.....$58**

The United States Electrical Regulations

By Tom Henry

- •State by State listing of electrical licensing requirements
- •States that give examinations and issue licenses
- •States that have reciprocity
- •86 types of electrical work or classes of installations from electrical code, inspection, and/or licensing requirements
- •Examination Administration Procedures
- •Exam Format Sample
- •100 question exam with answers
- •Using the proper study aids to prepare for the exam

This book covers each state and their requirements for the applicant to take their license exam. Most states differ in their requirements as you will note.

Always check the BOI for your area as several states have different rules and updates on what NEC is being used for the current exam.

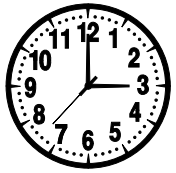
IT's ABOUT THE CODE BOOK and TIME!



MAKE SURE YOUR ULTIMATE CODE BOOK and KEY WORD INDEX ARE **UPDATED** TO THE MOST RECENT EXAM QUESTIONS

Most exam applicants agree the *Code book* is the most difficult part of an electrical exam. **Time** becomes such an important factor. 100 open book questions are to be answered in *4 hours* on the exam.

The difficulty occurs when you say Code book. Most applicants taking an exam are not familiar enough with the Code book and it's easy to understand why only 25 out of 100 pass an electrical exam on the first try.

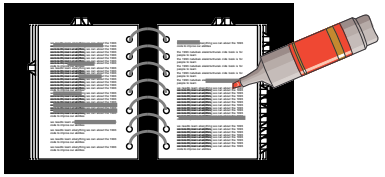
This **UPDATE** contains 100 recent open book code questions in four 25 question exams so you can monitor your improvement in the code in one hour at a time.This **UPDATE** contains 61 **NEW** KEY WORDS to add to your 2014 and 2017 KEY WORD INDEX containing code section and page number. The **UPDATE** also contains 100 recent exam **ANSWERS** to check and make sure they are Hi-Lited in your Ultimate Code book

ITEM # 1008 THE UPDATE $25

2020, 2017, & 2014 ULTIMATE

THE ULTIMATE CODE BOOK - IT WORKS!

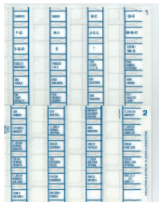
Aren't you tired of hunting, digging, and scratching to find something in the Code Book? Stop spending all that time when you can find it in seconds using the **ULTIMATE** Code book. Ask the thousands of electricians, contractors, designers, inspectors, etc. that have one if it works.

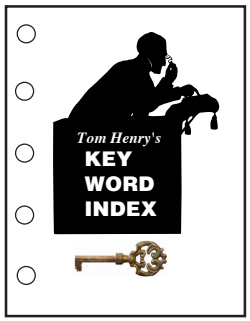


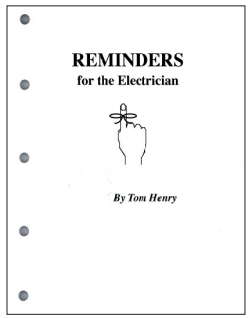
Over 3,600 of the most frequent referenced areas of the Code are hi-lited for quick reference!

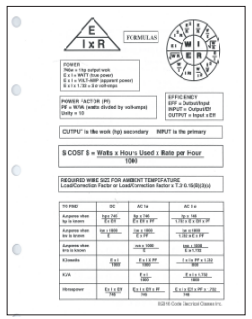
PERSONALLY HI-LITED!

The 68 tabs include the most frequent referenced areas of the Code









The "***ULTIMATE***" Code package includes the NEC looseleaf, *Tom Henry* 68 TABS (installed), KEY WORD INDEX, REMINDER BOOK, 14 pages of FORMULA INSERTS, plus over 3,600 ***KEY*** Code references **HI-LITED**!

ITEM #1101..... 2020 Ultimate $269.00
#1102..... 2020 Ultimate Softback Edition $269.00

ITEM #620 2017 Ultimate **$269.00**
ITEM #621 2017 Ultimate Softback Edition **$269.00**
ITEM #920 2014 Ultimate **$269.00**
ITEM #921 2014 Ultimate Softback Edition **$269.00**

THE COMPLETE-PLUS CODE BOOK

The ***"COMPLETE-PLUS"*** Code package includes the *2020* LOOSELEAF, *Tom Henry* TABS (installed), KEY WORD INDEX, REMINDER BOOK, 14 pages of FORMULA INSERTS. (The "Complete-Plus" is **NOT** hi-lited).

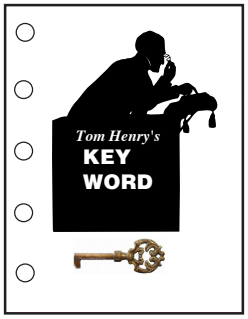
ITEM #1103 ..... $219.00

THE ELITE CODE BOOK

The **"ELITE"** Code package includes the *2020* LOOSELEAF, *Tom Henry* TABS (installed), KEY WORD INDEX, REMINDER BOOK, 14 pages of FORMULA INSERTS, plus over 3,600 ***KEY*** Code references **HI-LITED** ***in a special simulated leather black cover that has one secretarial pocket, one horizontal pocket, three business or credit card pockets, two pen loops, and pagelifters. For the boss!!***

ITEM #1104.....$365.00

KEY WORD INDEX

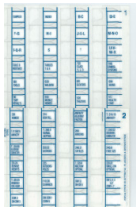


THE BIG SELLER! The ***KEY WORD INDEX*** is a MUST for every person in the electrical industry that uses the Code Book!

Tom Henry first wrote this book for the 1990 Code and it was revised for 93, 96,99,02,05,08,11,14.17 Now it's for the 2020 Code. Ask an electrician if he has a KEY WORD INDEX and he'll answer "IT WORKS"! Now you can find what you're looking for in the Code Book in seconds!

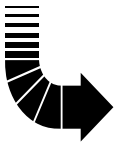
ITEM #814 ..... $24.00
ITEM #818 ***2020 POCKET SIZE KEY WORD INDEX*****....$24.00**
ITEM #823 ***2020 KEY WORD INDEX HANDBOOK EDITION*****....$24.00**

CODE BOOK TABS

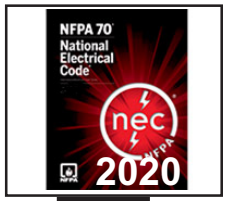


Tom Henry's famous "BLUE & WHITE" tabs. These **68** tabs are designed for everyone in the electrical industry that uses the Code book.

ITEM #813 ..... $13.00

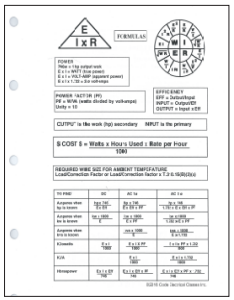


68 TABS ONLY $13 WHY PAY MORE FOR LESS?



THESE TABS FIT ALL THE 2020 CODE BOOKS!

FORMULA INSERT PAGES

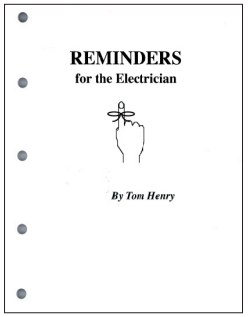


FITS IN THE LOOSELEAF CODE

FORMULA INSERT PAGES - *Tom Henry's* 14 pages of calculation formulas and formats. Formulas for exact K, for voltage drop, efficiency, ohms law, kva, transformers, ambient corrections, nipple fill, motor calculation steps, motor va, etc.....

Pages are pre-drilled to fit the Looseleaf Codebook. Excellent guide to have in your Code book.

HAVING TROUBLE REMEMBERING ALL THOSE FORMULAS?
SNAP THESE 14 PAGES INTO YOUR 2020 LOOSELEAF CODE BOOK....
ITEM #816 .. $6.00



REMINDERS FOR THE ELECTRICIAN

Tom Henry's "Reminders For The Electrician" 8 1/2" x 11" book contains 65 pages of useful formats and formulas for the everyday Electricians' needs.

The pages are perforated and **pre-drilled to fit in your looseleaf Code book.**

ITEM #815 ..... $24.00

Changes to the 2020 National Electrical Code® Workbook

By Tom and Tim Henry

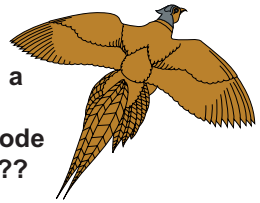
- Read Tom Henry's comments on the changes he feels will efffect the classroom.
- The Ampacity Tables revert back to Table 310.16
- New box fill calculation for equipment grounding conductor
- New sections where AFCI is required
- New sections where GFCI is required
- Many new definitions not only in Article 100 but throughout the Code
- Several new sections requiring approval by the AHJ
- Several new sections requiring identification and marking of equipment
- More protection for first responders
- Four New Articles, etc.....

This book is titled *Changes to the 2020 National Electrical Code®.*

ITEM #1038 Changes to the 2020 National Electrical Code Workbook..... $24.00

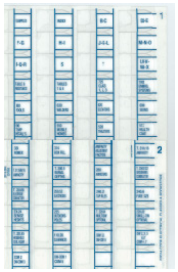
AMMUNITION COMBO

You wouldn't go hunting with a gun and NO ammunition! Then why hunt around in the Code book without the ammunition??



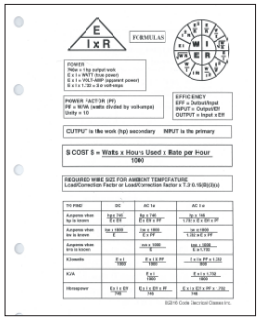
AN EMPTY GUN

- **NO TABS**
- **NO KEY WORD INDEX**
- **NO FORMULA INSERTS**
- **NO REMINDER BOOK**

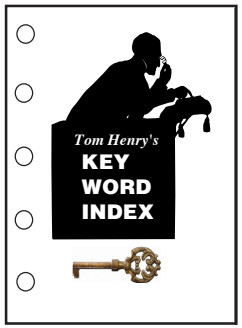


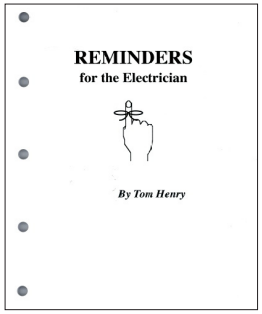
Have you ever wondered why they don't want you to use a **Key Word Index** when taking an exam? It contains NO answers!

To pass an exam it requires the proper study techniques. First you must be able to find the answer in the Code book within a limited time.



You must spend your valuable preparation time getting familiar with as many areas of the Code book as possible. Use your **Key Word Index** to do this, then leave it at home when you take the exam. You won't need it, for now you have familiarized yourself with the difficult areas of the book.





If you have an empty gun, or a gun with the competitor's tabs (*we sell scissors*) now is your chance to load up and have successful hunting!

AMMUNITION COMBO includes items #813 TABS, #814 KEY WORD INDEX, #816 FORMULA INSERTS, and #815 REMINDER BOOK.

ITEM #817 ..... $63.00

Tom Henry's Electrical Exam Study-Aid Books

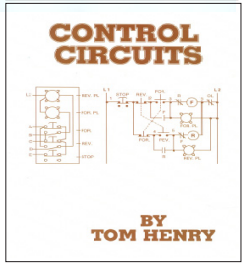
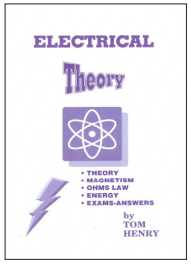
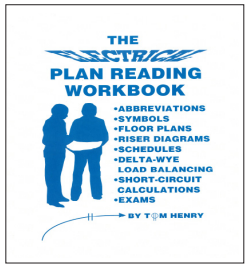
Tom Henry's 59th Book! Code Tables
Understanding the Code Tables is very important to the reader of the book preparing to take an electrical exam. During my journey traveling 21 states, 84 cities preparing electricians for their license exam, I've experienced the weakness the student had in applying the Code Tables. Some have missed passing the exam by one or two points merely by being unfamiliar with the Code Tables and how they are applied.In this book I show the Table and place arrows in the Tables and notes and mark the key words that will take you to the correct answer. **ITEM #909.... $29.00**



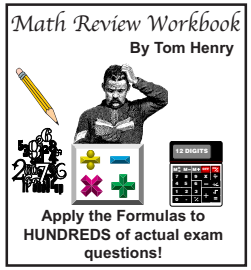
Control Circuits is an excellent book. A most requested book to make control circuits easy to understand for the electrician that is unfamiliar with controls. This is a very troublesome area on the exam for some. This book has all the control questions I've seen asked!
ITEM #107 ..... $29.00



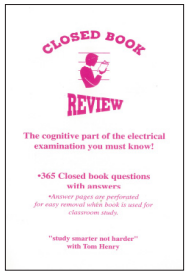
Electrical Theory. The Electrical Theory book covers the atom, valence shell, energy, inertia, magnetism, motors, generators, sine wave, impedance, transformers, inductance, etc. The book contains 10 practice exams and a final exam. Answers are explained easily in detail.
ITEM #326 ..... $25.00



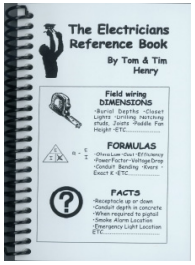
The Electrical Plan Reading Workbook. An excellent workbook for training programs as it starts with symbols and abbreviations, etc. The workbook includes 14 exams with answers to test what has been learned.
ITEM #276 ..... $29.00



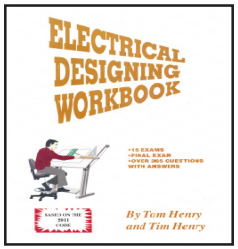
Math Review Workbook. •30 pages of practice with formulas and answers in detail.
•Adding - Subtracting Fractions, Fractions to Decimals, Decimals to Fractions, Percentages, Square Root with the Calculator, The Circle, Square Inches, Plan Reading Measurements, Cost Formulas, Sine Wave with the Calculator, Vars and Kvars with the Calculator, etc.....
•8 Multiple Choice Exams with all the questions asked from the MATH categories on the Electrical License Examination.
•200 Math Exam Questions with answers explained in FULL DETAIL on over 50 pages by Tom Henry. **ITEM # 982 Math Review Workbook.....$29.00**



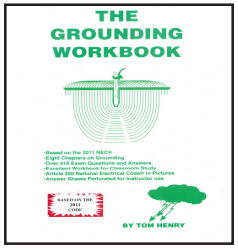
Closed Book Review. With the "NEW" exam format the closed book questions are now called "NO BOOK" questions. How many answers do you have to "NO BOOK" questions? This book contains 365 questions that should be studied and researched. **ITEM #447 ..... $25.00**



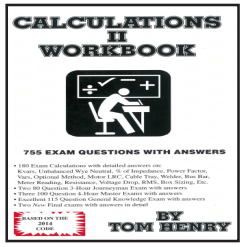
The Electricians Reference Book. A reference book to put in your pocket that will explain whether the receptacle grounding pin is installed "up" or "down." The minimum height of a paddle fan, the location of smoke detectors, exit and emergency lights, rules for the drilling and notching of studs, rafters and joists, when to pigtail a receptacle wire, depth of conduit in a concrete slab. Plus you'll have all the conduit, box fill, voltage drop, motors, transformer, wire sizing tables, conduit bending charts, burial depths, service conductor heights, etc.
ITEM # 905 ..... $19.00



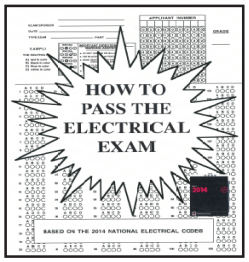
Electrical Designing Workbook. Over 375 pages filled with designing of the electrician's everyday needs. Avoid re-pulling THHN conductors because you didn't understand the ampacity and terminal rating. The many variables that apply to correct wire sizing are fully explained in detail. Excellent book for training programs.
ITEM #283-11 ..... $39.00



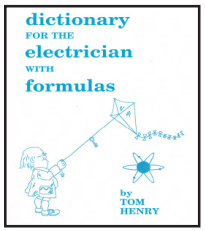
The Grounding Workbook is designed for training programs to take the mystery out of grounding. Tom Henry's favorite book! **Every person** in the electrical industry should work the 27 exams this book contains. *Answers included in back of book on perforated pages.*
ITEM #197-20 ..... $39.00
ITEM #197-17 ..... $39.00
ITEM #197-14 ..... $39.00



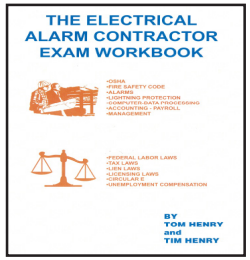
Calculations II Workbook. If you're taking the I.C.C. Master exam in Texas, you need this book to practice the calculations on transformer impedance, fault-current calculations, the capacitor kvar questions, etc. (A must for the **I.C.C.** exam)
ITEM #325-20 ..... $39.00
ITEM #325-17 ..... $39.00



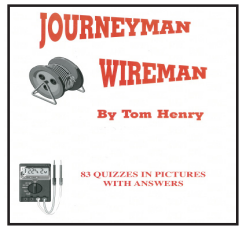
How To Pass The Exam is the "icing on the cake!" After reviewing the other study-aid books work this one and you'll know if you're ready to take the exam.
ITEM #109-17 ..... $29.00
ITEM #109-14 ..... $29.00



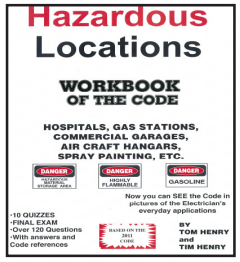
Dictionary for the Electrician with Formulas. Tom Henry's favorite reference book! This dictionary defines the language used in the construction field. **But more than a dictionary, this book contains many Formulas, Diagrams & Reference Charts.**
ITEM #110 ..... $26.00



The Electrical Alarm Contractor Workbook. An excellent book to prepare you for the Burglar & Fire Alarm exam. Covers OSHA, UL, NFPA, Business Law, Loop Circuits & MORE! THE book to have in preparing for this exam! **Includes hundreds of exam questions with answers!**
ITEM #115 ..... $29.00



Journeyman Wireman. Excellent book to help prepare an electrician for the mechanical aptitude test which many areas include in the license exam.Contains **83 quizzes** in pictures with answers!! **A must book for apprenticeship programs!** **ITEM #171 ..... $29.00**

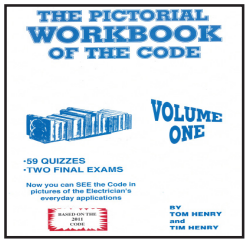


Hazardous Locations Workbook of the Code. If you're wiring gas stations, hospitals, nursing homes, paint spraying facilities or other classified locations, you need this workbook of pictures! Over 120 questions with answers and Code references included. *Answers included in back of book on perforated pages.* **ITEM #245 ..... $29.00**

Tom Henry's Learning the Code in Pictures - Study-Aid Books

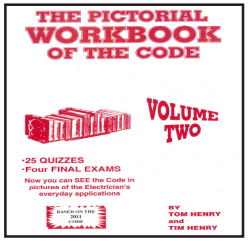
An excellent way to study the Code as each section is put into a picture. The answer sheets are perforated for easy removal by the instructor when issuing exams to the students. **Many schools and apprenticeships throughout the USA use these books as an easier way to teach the Code with pictures!**

An excellent way for Electrical Engineers that had zero hours of Code study in the four years at the University learn the Code and be tested on what they have learned!



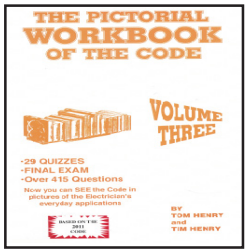
The Pictorial Workbook of the Code - Volume ONE. The Code book in pictures. Volume One starts at the beginning: Articles 90, 100, 110, 200, 210 & 215. A must book for every electrical training program! Now you can "learn" the Code! Answers to 59 quizzes and two final exams. *Answers included in back of book on perforated pages.*

ITEM #198-17 ..... $29.00
ITEM #198-14 ..... $29.00



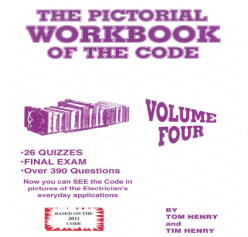
The Pictorial Workbook of the Code - Volume TWO. Volume Two covers Articles 220 thru 240 in pictures. Answers to 25 quizzes and four final exams included with book. *Answers included in back of book on perforated pages.*

ITEM #236-17 ..... $29.00
ITEM #236-14 ..... $29.00



The Pictorial Workbook of the Code - Volume THREE. The Code book in pictures. Volume Three covers Articles 280 thru 398 in pictures. Over 415 questions with answers included. *Answers included in back of book on perforated pages.*

ITEM #243-17 ..... $29.00
ITEM #243-14 ..... $29.00



The Pictorial Workbook of the Code - Volume FOUR. The Code book in pictures. Volume Four covers Articles 400 thru 490 in pictures. Over 390 questions with answers included. *Answers included in back of book on perforated pages.*

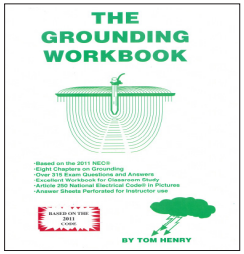
ITEM #244-17 ..... $29.00
ITEM #244-14 ..... $29.00

Tom Henry's Learning the Code in Pictures - Study-Aid Books

"The English language has 42 sounds spelled in 400 ways."

"The National Electrical Code was written at the level of a second year college student of English."

An excellent way to study the Code as each section is put into a picture. The answer sheets are perforated for easy removal by the instructor when issuing exams to the students.



The Grounding Workbook is designed for training programs to take the mystery out of grounding. Tom Henry's favorite book! **Every person** in the electrical industry should work the 27 exams this book contains. *Answers included in back of book on perforated pages.*

ITEM #197-20 ..... $39.00
ITEM #197-17 ..... $39.00
ITEM #197-14 ..... $39.00

Special Classroom Combo Price for 5 books!

The 65volumes of "**The Pictorial Workbook of the Code**" covers the first four chapters of the Code in pictures. The first four chapters, I have always referred to as "the meat of the code."

There's a tremendous amount of work that must be done in electrical training. The one area I feel we are lacking in is "learning" the Code. **You can't just read the Code book, it must be taught to you.** "Now you can SEE the Code in pictures of the Electrician's everyday applications!"

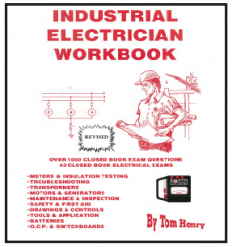
The National Electrical Code is based **on the fact that to do less would be a hazard**. Many of the sections of the Code are a result of known fire; incorporating corrections into the Code is an attempt to prevent future similar occurences.

Every rule in your safety manual is written in somebody's blood. The freedom and safety that you and I enjoy in our communities in large part is due to the sacrifice of others.

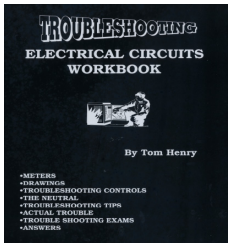
Contains **1,721 Code questions with answers**, **165 quizzes or exams**, **9 final exams with answers** and **Code references**.

5 Book Combo ITEM #456-17 .... $125.00
#456-14.... $125.00

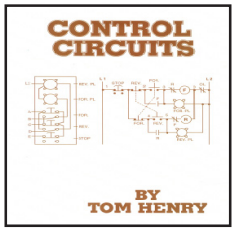
Tom Henry's Industrial - Maintenance Study-Aid Books



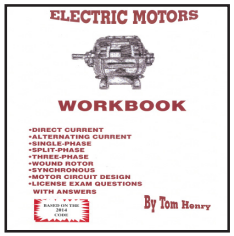
Industrial Electrician Workbook. The workbook for the electrical person working in the electrical industry. This book contains over 1000 closed book questions. 43 closed book electrical exams with answers. Questions on reading a multimeter, reading a megohmmeter, ground detectors, troubleshooting control circuits, safety & tool questions, three-phase transformers, etc. 316 pages.
ITEM #344 ..... $29.00



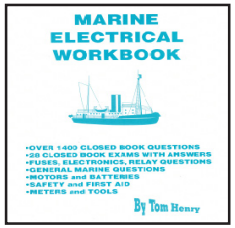
Troubleshooting Electrical Circuits Workbook. I wrote this book to introduce troubleshooting so the electrician can keep the lights on and the machinery running. I have found in my travels and teaching, from the questions being asked to me, that there is a definite need for a book on troubleshooting electrical circuits.
ITEM # 672 ..... $29.00



Control Circuits is an excellent book. A most requested book to make control circuits easy to understand for the electrician that is unfamiliar with controls. This is a very troublesome area on the exam for some. This book has all the control questions I've seen asked!
ITEM #107 ..... $29.00



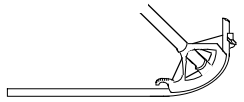
Electric Motors Workbook. This workbook is recommended for every electrical classroom and every electrician preparing for an electrical exam. Contains 15 exams with 250 motor questions with answers. Answers on perforated (easy to remove) pages for the classroom instructor.
ITEM #323 .....$29.00



Marine Electrical Workbook. Contains 28 closed book exams with answers. 236 pages. An excellent electrical exam preparation book as it contains over 1400 closed book questions with answers.Many questions on theory, safety, first-aid, tools, motors, batteries, etc.
ITEM #322 ..... $29.00

CONDUIT BENDING

WITH A VIDEO PRESENTATION

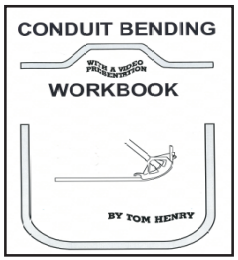


The Award Winning Presentation is available on DVD!

The student needs to learn how to make the bends that are made on the job. You learn conduit bending by doing it!

Complete Bending Program with DVD
ITEM #394-08 ...$65.00

- **DVD PRESENTATION**
- **CONDUIT BENDING WORKBOOK**
- **BENDING CHARTS (pocket size)**



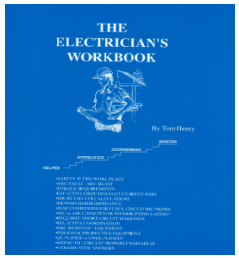
Conduit Bending Workbook. The Conduit Bending Workbook is a true example of "a picture is worth a thousand words". This workbook is filled with pictures showing you the position of the hands, feet, bender head, direction of bend, conduit on floor, conduit in the air, foot pressure, hand pressure, etc.
ITEM # 396 ..... $29.00

The Bending Charts include charts for 3-Point Saddle Bends, Conduit Gain, Offset Bends, and an Offset Formula.

It's best to purchase the Complete Bending Program. But, items can be purchased separately:

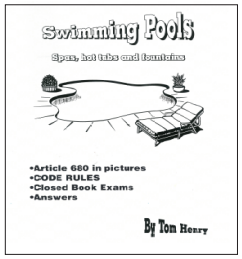
Conduit Bending on DVD **ITEM #395-08 .... $49.00**
Conduit Bending Workbook **ITEM #396 ..... $29.00**
Conduit Bending Workbook *in Spanish* **ITEM #606... *$29.00***
Conduit Bending Charts **ITEM #397 ..... $3.00**

Tom Henry's **Study-Aid Books**



The Electrician's Workbook. I started my electrical apprenticeship in 1956. Back in those days you were studying to become a skilled craftsman in a trade. Back then you were taught to "train your brain before you test it." This is an excellent book for an apprentice or training class as it contains exams with answers in which to grade the student.

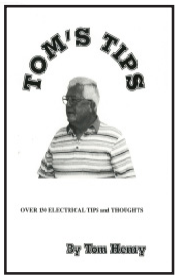
ITEM # 671 ..... $29.00



Swimming Pool Workbook. The book covers NEC Article 680 in detail with pictures, comments and exams with answers.

ITEM # 674 ..... $29.00

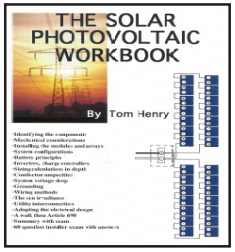
THE ELECTRICIANS' BOOK



Tom's Tips. Over 130 electrical tips and thoughts. Excellent pencil drawings, Carter System, Hole Locater, GFCI, HACR, Inertia, Job Site Volts Wagon, Remember the Maine, Pop-up Toaster, Romex Payoff reel, Tandem Breakers, Torque, Ufer Ground, Water Analogy, Removing KO's, Centering Mast Hole, etc., etc.....

ITEM #400 ..... $15.00

In Spanish - ITEM #604**.....$15.00**



The Solar Photovoltaic Workbook. Photovoltaic solar systems are being installed throughout the U.S. in states like California (where it had to have 20% renewable energy by 2010), Florida, New Jersey, New York and many other states where financial incentives are available, the solar business is booming! Solar power systems are rapidly growing over 30% per year segment of the residential and commercial electrical systems market.

This workbook written by ***Tom Henry*** will take you from start to finish in designing and calculating the equipment and wire sizes. The book includes a 60 question installers exam with answers. Several states now require this exam.

Start your future today and enter into employment THAT IS THE FUTURE!

ITEM #810 ..... $45.00

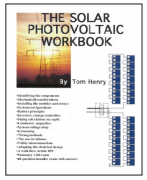
Installing A Solar PV System Per the Manufacturer's Instructions

Code Electrical Classes Inc. is proud to announce it now has a complete 14 DVD Program on how to install the PV Solar System correctly to the manufacturer's specifications to maintain the customers warranty



Not only does this program include **14 DVDs** but also the **workbook** that is given to students in the classes we teach containing 322 photos of the PowerPoint slides we use in class.

The 14 DVDs Contain:

•Roof Top Safety •The Site Assessment •Roof Layout Measurements, Torque Tools-Torque Specs •Grounding of the Rails, Torquing Specifications •Lagging into the Roof, Installing the Rail System •Following the Code •Roof Installation •Torquing, Grounding and Wiring the System •Applying Code Article 690 to the PV System •Installing the Enphase Micro-Inverter AC system •Designing the PV Solar System •Final Check Out, Troubleshooting the System •Installing the Dual-Axis Tracker, Start to Finish •Batteries, Designing Different Types of Systems •Cleaning, Inspection and Maintenance •Summary

Installing A Solar PV System Per The Manufacturer's Instructions

ITEM #426 ..... $695

HVAC Technician Electrical Workbook. In this volatile economy, a stable career is a difficult thing to find. HVAC technicians are always needed as we all use these systems in our everyday lives. Not only do things break and need repaired, but residential HVAC systems generally need replaced after 10 years and will require experienced and well-trained technicians to handle the replacements. Replacing systems due to concerns regarding their environmental impact has also become much more common in recent years and has increased the amount of work available to the well trained technician. Start your HVAC career today with Tom Henry!Over 190 pages with questions and answers! HVAC Technician Electrical Workbook starts with the elementary basic circuit with a pictorial diagram and will build a schematic diagram one circuit at a time identifying the symbols with a legend.

ITEM #821 ..... $45.00

HVAC Technician Electrical Program

Two DVDs with over 2 hours of Tom and Tim Henry instructing on how the system operates in sequence, how to build and read a schematic drawing, how to use and read meters, how to read the microfarads of capacitors, how to read the resistance of compressor windings, how the potential relay operates, how the heat pump defrost cycle operates, how to troubleshoot the system electrically, etc.

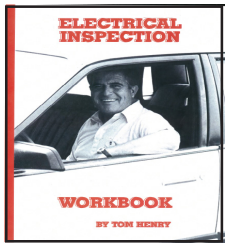
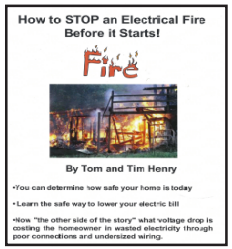
Home Inspection Electrical Book and 2 DVDs. The 14 chapters in the Home Inspection Electrical Guide book are: History, Code Violations, The Service, Grounding, GFCI, Overcurrent Protection (circuit breaker or fuse), Receptacles, Flexible Cords, Wiring, Electricity, The Circuit, Voltage Drop, Loose Connections, AFCI, Summary. The book has 149 pages.

ITEM #903 ..... $79.00



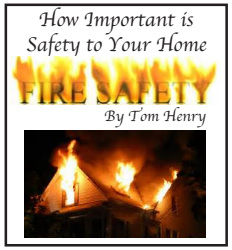
Electrical Inspection Workbook. 12 chapters include: The Inspector, Rough-In, The Service, Grounding, Plan Reading, Fault Currents, Pools, Emergency Systems, Signs & Hazardous Locations, Miscellaneous Inspections, Final Inspection, Final Inspectors Exam.

ITEM #298 ..... $29.00

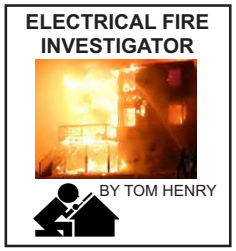


How to STOP an Electrical Fire Before it Starts. Tom Henry tells "the other side of the story" on the high electric bill which hasn't been told before! Tom lets it all out in this life saving book. Tom and Tim go into great detail in the 14 chapters:

ITEM #669 .... **$39.00**



Fire Safety. Expert analysis will often be required to obtain accurate and supportable results during an electrical fire investigation. Fires often involve very large levels of financial loss, and in some cases, fatalities. Careful application of scientific principles and process, combined with a clear understanding of how electricity and fire behave, is the best way to minimize the risk of misdiagnosis. **ITEM #977** **$29**



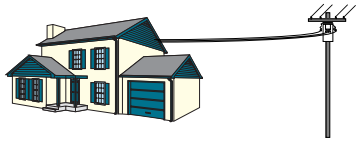
Electrical Fire Investigator. An electrical expert witness is someone who works with legal professionals by consulting on cases and even testifying in court hearings or trials.

Do you have a **Master license**? You may qualify as an expert in personal injury cases. Hourly fees range from approximately **$200 to $750 or more per hour.**

ITEM #978.... **$29**

Starting Your Own Re-Inspection Business

Certification Course Electrical Safety Re-Inspection By Tom Henry



FIRE SAFETY For Your Family

A Tom Henry Code Electrical Certified Electrical Re-Inspection Single-Family Dwelling

Quality Preparation for Your Electrical Examination and License recertification. Affiliate Member I.A.C.E.T. (International Association for Continuing Education and Training.

CEC ELECTRICAL TRAINING • 1982 •

I'm excited about venturing into this new field. It's all about saving a life and I feel its a moral obligation that I need to do. As I have seen what starts electrical fires and the end results.

An insurance company typically orders an insurance inspection in three situations: 1. When the policy is first written, often when the home is purchased. 2. Periodically through the life of the policy when they choose to review and reassess the risks they underwrite. 3. When an insurance inspection reveals a risk, the homeowner is then allowed to correct (eg: a missing handrail), the insurance company will order a re-inspection to confirm the risk was corrected.

Banks won't lend money on a home without insurance.

You will receive the book "How to Stop a Fire Before it Starts" and two DVD's "The Behavior of Electricity."

You will also receive three exams:

Exam #1 - 50 Questions asked from book "How to Stop a Fire Before it Starts."
Exam #2 - 50 Questions asked after viewing DVD #1.
Exam #3 - 50 Questions asked after viewing DVD #2.

When passing the Certification Exams with a 85% score you will receive a Certificate and a Field Reference Guide Book ***"REST EASY* Electrical Safety Re-Inspection."**

•Note: This Certification is only available to *Tom Henry's* "Learn to be an Electrician" graduates and licensed Master Electricians.

Item #975 Certification Course Electrical Safety Re-Inspection $295

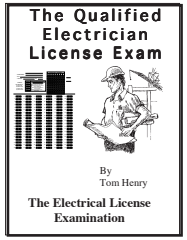
With the many electrical accidents today lawyers, are looking for licensed master electricians in many cities throuhout the USA for personal injury cases.

Electrical History. This book was written in appreciation of the more than 15 million men and women that work in the electrical industry to keep the lights burning every second, every minute, 24 hours a day, everyday.

ITEM #324 ..... $12.00



Scope – Tests a candidate's knowledge of the design, plan, installation, repair, alteration, and maintenance of electric conductors, raceways, and equipment for light, heat, power, electrical theory, OSHA and National Electrical Code.

Exam Topic

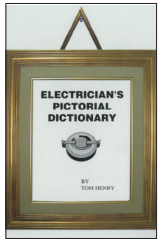
General Electrical Knowledge, Wiring and Protection, Wiring Methods and Materials, Equipment for General Use, Special Occupancies, Special Equipment, Special Conditions, Communication Systems, Safety.

This book has **over 565** exam questions and answers from these categories: Construction electrician, Maintenance electrician, Parts-Tools-Safety, Electrical Inspector, National Electrical Code, Basic Code Calculations, Basic Controls, OSHA, Theory, **The Ultimate Closed Book Exam 115 questions**.

This book will show you your strengths and weaknesses. It will give you the feel by taking actual examinations and grading yourself.

The Qualified Electrical License Exam

ITEM #930.....$29



Electrician's Pictorial Dictionary. You've heard the saying "a picture is worth a thousand words." Every electrician should be familiar with the equipment and tools of his profession.

ITEM #449 ..... $15.00

CLOSED BOOK AUDIO CDS

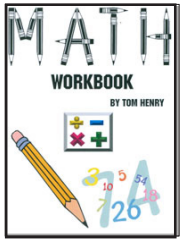
Your mind is like a computer disk. The *more* we have loaded on the disk, the more we can recall when asked on the exam.

The troublesome CLOSED BOOK is now made easy as Tom Henry goes over each answer in DETAIL on audio CD. **3 CLOSED BOOK exams** with **150** questions selected by Tom Henry to help the exam applicant learn this part of the electrical examination.

Each CLOSED BOOK EXAM contains 50 questions. A ONE HOUR CD narrated by Tom Henry gives, in full detail, the answer to each question on each exam. **A total of 3 hours of audio!**

You will learn how to memorize and store items in your mind. These exams can be worked over and over again. **The 3 audio CD's can be listened to as you drive in your truck or as you sit at home.** The student will memorize burial depths, definitions, service clearance heights, etc.

ITEM #192 CLOSED BOOK 3 AUDIO CDS .. $39.00

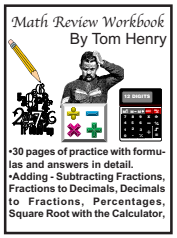


The Math Workbook. Unfortunately, math is often the most disliked and least understood subject taught in school. This usually results from a failure, either on the part of the teacher or student, to appreciate the practical usefulness of math. Problems are considered merely as "numbers," and the student never really knows how this information was obtained and can be used in later life.

As a result, the student sees no good reason why they should attempt to understand even the most basic operations.What does this have to do with taking an exam? The answer is this, without understanding basic math operations, you cannot hope to pass an exam or be successful in the construction industry.

ITEM #819... $29.00

Math Review Workbook



•30 pages of practice with formulas and answers in detail.

•Adding - Subtracting Fractions, Fractions to Decimals, Decimals to Fractions, Percentages, Square Root with the Calculator, The Circle, Square Inches, Plan Reading Measurements, Cost Formulas, Sine Wave with the Calculator, Vars and Kvars with the Calculator, etc.....

•8 Multiple Choice Exams with all the questions asked from the MATH categories on the Electrical License Examination.

•200 Math Exam Questions with answers explained in FULL DETAIL on over 50 pages by Tom Henry.

The Leader in Electrical Education

TOM HENRY'S EXAM SERIES ON DVD

THE DVD's ELECTRICIANS ARE TALKING ABOUT!!!

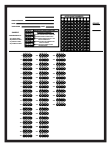
#513-08 - 2008 JOURNEYMAN SERIES. #501- #509 on DVD. $299.00

#514-08 - 2008 MASTER SERIES on 12 DVD's for $399.00

This Series can also be used with the **2011,2014, and 2017 National Electrical Code.** In the 2011 National Electrical Code, the ampacity Tables were renumbered. Example: Table 310.16 is now Table 310.15(B)(16).

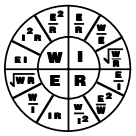
***DVDS CAN BE ORDERED SEPARATELY USE ITEM # BELOW**

$39.95 each EACH DVD IS 75-90 MINUTES



THE EXAM

DVD # 501-08 - "**The Exam**". Explains in great detail how to prepare for an electrical exam. It will test the electrician's knowledge on the closed book part of the exam dealing with theory, definitions, burial depths, etc. This video also tests ones knowledge in the open book part of the exam explaining the careful reading of *key words*. This video contains worksheets with questions and answers.



OHMS LAW - THEORY

DVD #502-08 - "**Ohms Law & Theory**". Makes Ohms Law easy to understand. It explains the symbol letters, covers series circuits, parallel and series-parallel circuits, inductive and capacitive reactance, impedance, harmonics, neutral, etc. Every subject needed for the exam! Includes a worksheet with questions and answers.

VOLTAGE DROP & RESISTANCE

DVD #503-08 - "**Voltage Drop - Resistance**". Takes you through the Code requirements and resistance tables for voltage drop. How to use the formulas and solve the "*exact K*" factor. Understanding these calculations is a very important part of the exam. Includes worksheets with questions and answers.

AMPACITY CORRECTION FACTORS

DVD #504-08 - "**Ampacity Correction Factors**". Takes the electrician on a walk through the ampacity tables to learn the *correct* method for sizing conductors. This is the *most violated* calculation in everyday wire sizing. All of the notes, correction factors, notes on derating, the *, etc. are explained on this video.The correct use of THHN wire on 60° or 75°C rated terminations. This video includes a worksheet with questions and answers.

•Our DVD-Rs are compatible with the vast majority of DVD players made after 2001. If you have an older DVD player, or one that does not support the DVD-R format, it may not play these DVDs. If you have a problem with a DVD, please contact Code Electrical Classes Inc.

TOM HENRY'S EXAM SERIES ON DVD

THE DVD's ELECTRICIANS ARE TALKING ABOUT!!!

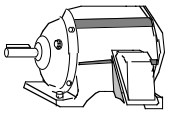
#514-08 - 2008 MASTER SERIES on 12 DVD's for **$399.00**

#513-08 - 2008 JOURNEYMAN SERIES. #501- #509 on DVD. **$299.00**

This Series can also be used with the **2011, 2014, and 2017 National Electrical Code.** In the 2011 National Electrical Code the ampacity Tables were renumbered. Example: Table 310.16 is now Table 310.15(B)(16)..

***DVDS CAN BE ORDERED SEPARATELY USE ITEM # BELOW. $39.95 each**

EACH DVD IS 75-90 MINUTES



MOTORS

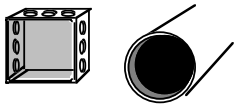
DVD #505-08 - "**Motors**". Takes you through the 6 steps of motor calculations from the F.L.C. to the sizing of the feeder overcurrent device. Explains the next higher standard size fuse or breaker, largest motor, single-phase motors on a three-phase system, overloads, wound-rotor, service factors, etc. Includes worksheets with questions and answers.

COOKING EQUIPMENT DEMAND FACTORS

DVD#506-08-"**Cooking Equipment Demand Factors**". Covers the hard to understand tables on household and commercial cooking equipment demand factors. The notes are fully explained. The video covers the sizing of the neutral, 1 ø ranges on a 3 ø system, home economics classroom demand, etc. Includes two worksheets with questions and answers.

DWELLING-RESIDENTIAL SERVICE SIZING

DVD #507-08 - "**Dwelling-Residential Service Sizing**". Starts at the minimum size *100 amps* and works up from there! You must understand the code rules for a dwelling if you want to pass an exam! The video covers the sizing of the grounding electrode conductor, neutral sizing, notes, etc. Includes a worksheet with questions and answers.



BOX and CONDUIT SIZING

DVD #508-08 - "**Box and Conduit Sizing**". Takes you on a walk explaining the Code Tables 314.16a & b, Tables 4 and 5 and Annex C with 82 pages on conduit fill! The video covers the confusing *with or without a cover* for selecting the correct area of square inch. This video also includes 2 worksheets with questions and answers.

Our DVD-R's are compatible with the vast majority of DVD players made after 2001. If you have an older DVD player, or one that does not support the DVD-R format, it may not play these DVD's. If you have a problem with a DVD, please contact Code Electrical Classes Inc.

TOM HENRY'S EXAM SERIES ON DVD

THE DVD's ELECTRICIANS ARE TALKING ABOUT!!!

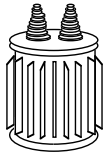
#513-08 - 2008 JOURNEYMAN SERIES. #501- #509 on DVD. **$299.00**

#514-08 - 2008 MASTER SERIES on 12 DVD's for **$399.00**

This Series can also be used with the **2011, 2014, and 2017 National Electrical Code.** In the 2011 National Electrical Code, the ampacity Tables were renumbered. Example: Table 310.16 is now Table 310.15(B)(16).

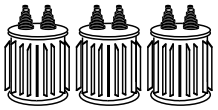
***DVDS CAN BE ORDERED SEPARATELY USE ITEM # BELOW. $39.95 each**

EACH DVD IS 75-90 MINUTES



SINGLE-PHASE TRANSFORMERS

DVD #509-08 - "**Single-Phase Transformers**" Explains the theory involved, ratios, volt-amps, efficiency, power factor, input, output, skin effect, eddy current, phase, balancing loads, neutral calculations, etc. Includes worksheets with questions and answers.

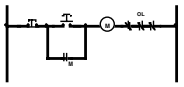


THREE-PHASE TRANSFORMERS

DVD #510-08 - "**Three-Phase Transformers**" Makes the *very troublesome* exam calculation very easy to understand for the electrician. A simple to follow 1 to 4 format designed by Tom Henry to answer the delta-wye questions. The video covers phase amps, line amps, efficiency, kva, delta high-leg, open-delta, balancing, etc. A *must* video if you are taking a master electrician exam! Worksheets included.

COMMERCIAL-MULTI-FAMILY SERVICE SIZING

DVD #511-08 - "**Commercial-Multifamily Service Sizing**" Walks you through the step by step format to determine the *minimum size* service to a school, restaurant, motel, apartment, etc. The video covers the receptacle demand, multi-outlet assemblies, show window demands, sign requirements, etc. Includes 4 work sheets with questions and answers.



MOTOR CONTROL - SWITCH CONNECTIONS

DVD #512-08 - "**Motor Control-Switch Connections**" Explains schematics, interlocks, sequence, relays, motor starters, contactors, 3-way and 4-way switch connections, etc. A *must video* if you're taking an exam! Includes 3 worksheets with questions and answers.

•Our DVD-Rs are compatible with the vast majority of DVD players made after 2001. If you have an older DVD player, or one that does not support the DVD-R format, it may not play these DVDs. If you have a problem with a DVD, please contact Code Electrical Classes Inc.

The Behavior of Electricity

Two DVDs

Witness 3 hours of electrical demonstrations of explosions of actual short circuits and a loose connection starting ohmic heating which starts actual fire in the wall before your eyes!

ITEM #911 Behavior of Electricity.....$98

Electricity in Motion

Now you can actually see "Electricity in Motion" as never seen before in this amazing 90 minute DVD!

I want every electrician in the world experienced or just starting out to witness these demonstrations to learn the respect electricity deserves.

Water Demo - Current Flow, Coin Demo - Chemical Electricity, Aluminum-Copper - Dissimilar Metals, Lemon Demo - Chemical, Magnet Demos, Ground Fault Demos, Short Circuit Demos, Arc Fault-Arc Blast Demos, ETC..... Electricity in Motion DVD **ITEM #800** ... **$49**

BONUS PACKAGE Electricity in Motion and "The Electrician's Workbook". The Electrician's Workbook to further your knowledge from this DVD. Workbook is priced at $29, purchased with the DVD the total bonus package price is **ITEM #801 ..... $59**

BACK TO SCHOOL 3-DVD COMBO

SHORT SUBJECTS & ELECTRICITY IN MOTION

Short Subjects is for vocational and apprenticeship instructors to enhance and expand their current training program by showing these "Short Subjects" to inspire and awaken the sleepy student to generate the excitement by understanding the electrical field! **Subjects include:**

•The Magic Triangle •How to use the Calculator •Applying the Ohms Law Power Wheel •Series-Parallel circuits using light bulbs •Understanding fixed resistance •Wiring 3-way switches •Wiring 4-way switches •Start Stop switches in a schematic •How the GFCI operates •Setting the torque tools to inch-pounds •Cutting PVC with a string •Heating PVC bends •Grounding theory.

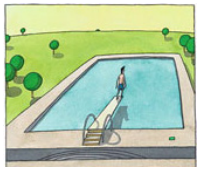
.

Back To School Combo 3 DVDs

(Short Subjects & Electricity in Motion)

ITEM #820 ..... $99.00

OVER 3 1/2 HOURS



SWIMMING POOLS

I contracted to have a swimming pool installed, so I decided to video the installation and write a book as I feel there is a void in this area. I learned quite a bit from this experience and I'll share it with you. This book covers NEC Article 680 in detail with pictures, comments and exams with answers. The video (One hour DVD) shows the pool installation from start to finish, I've never been able to find a video like this. A great DVD for a homeowner considering installing a pool. A great DVD for the electrician as it shows the electrical installation.

"Swimming Pool Workbook" **ITEM #674 ..... $29.00**

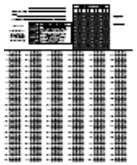
"Swimming Pool Installation DVD" **ITEM #675 ..... $39.00**

BOTH "Swimming Pool Installation Workbook and DVD" **ITEM #676 ..... $59.00** The Best Value!

TAKING AN ELECTRICAL EXAM WITH TOM HENRY

I can't take an exam for you, but I can take an exam with you! Now you can work a full 6-hour electrical exam and Tom Henry will personally go over each answer with you and provide tips.

These **3** DVDs are the *icing on the cake* for those preparing to take an electrical examination.



Taking the Exam with *Tom Henry DVD* Series with a 6-hour Exam Workbook .....**ITEM #432 ... $125.00**

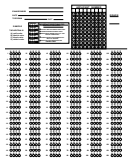
THE CONTRACTOR'S BUSINESS LAW EXAM



Because the construction business may be easy to get into, many enter without sufficient business management skills. Over 85% of contractor failures result from business reasons, not from lack of trade skills. Over one-third of these failures were less than five years from starting the business. Construction businesses succeed mainly because of careful planning and implementation. The days of throwing your tools in the trunk of your car and calling yourself a contractor are gone.

Success on the Business-Law exam starts well before you enter the examination room. You must become familiar with the reference book and know where to find the answers. Being unfamiliar with the exam and searching for the answer takes time, and time is limited to approximately two mintues per question. Highlighting is one of the most important study aids. As you answer the exam practice questions, hi-lite the answers in your reference book.

With Contractor's Business and Law calculations there are only a few categories that you need to be familiar with and understand how to solve. Categories that require a calculation are:
•Employees pay check •Percentage of completion of a project •Progress payment •Job cost •Net worth •Working capital •Profit •Contract price

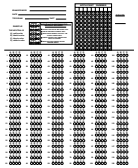
These categories will be covered in the **50** calculation exam questions you receive with the DVD, and **50** calculation exam questions will be answered on the dvd. Several questions will be asked from the same category, only the numbers will change. ***After finishing the exam, turn on the video and I'll go over each answer.***

Business Law DVD & 50 Question test by *Tom Henry*
ITEM #680 .... $65.00

TOM HENRY'S ELECTRICAL DVD's

Exam Questions from Beyond the Code

With Tim Henry



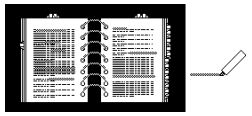
This booklet contains 50 questions and a 90 minute DVD from categories not found in the Code. You can test yourself starting with Question #1 in the booklet and continuing on to see how many you feel you can answer. When finished working in the booklet, turn on your DVD and I'll go over the answer to each question in detail.

This DVD covers an area generally taught in apprenticeship, but some have never had an apprenticeship and even if they did, it's most likely they've forgotten a lot of this subject matter.

We will cover the Ohms Law with series, parallel and series parallel circuit questions in detail. The resistance values of equal resistors and unequal resistors.

Exam Questions from Beyond the Code ITEM #679 .... $49.95

"A Walk Through The Electrical Code" with Tom Henry



12 Action Packed DVDs!!!

Let Tom Henry take you for a walk through the Code, an experience you will remember for a lifetime. Tom Henry has over 60 years of experience and will story tell sections of the code with actual experiences he has had as an instructor of over 22,000 students, as an inspector at Walt Disney World, as an author of over 70 books and as a master electrician in the field.

There is a tremendous amount of work that must be done in electrical training. The one area I feel we are lacking in is "learning" the Code. You can't just read the Code, it must be taught to you and clearly explained.

A Walk Through the Electrical Code / 12 DVDs

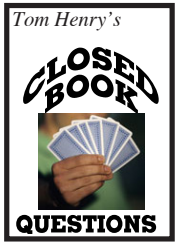
ITEM #677 ... $399.00

13 volume ***Audio*** CD program "A Walk Thru the Code" comes in audio format. Over 13 hours total.

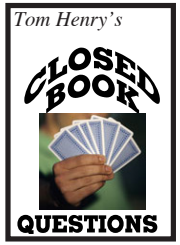
ITEM #802 ..... $169.00

OTHER THAN CODE QUESTIONS

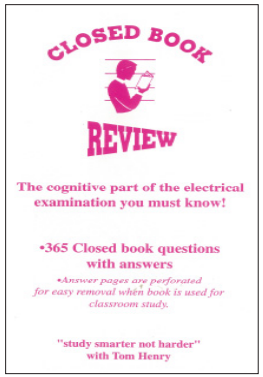
A BRAND NEW WAY TO PRACTICE AND MEMORIZE THE TROUBLESOME CLOSED BOOK EXAM QUESTIONS



- •SHUFFLE and ANSWER THEM
- •52 QUESTIONS-ANSWERS ON BACK
- •EXCELLENT EXAM PRACTICE
- •COVERS MANY AREAS
- •PRACTICE DURING BREAK
- •PLAY ALONE OR WITH SOMEONE
- •YOU CAN PRACTICE ANYTIME
- •A GREAT WAY TO MEMORIZE
- •EXCELLENT STUDY AID
- •THE ELECTRICIANS' TOOL
- •PRACTICE AT HOME OR WORK



ITEM #392 ..... $13.00



Closed Book Review. With the "NEW" exam format the closed book questions are now called "**NO BOOK**" questions. How many answers do you have to "**NO BOOK**" questions? This book contains **365 questions** that should be studied and researched. **Prepare and pass the exam the first time!!!**

ITEM #447 ..... $25.00

65 closed book exam questions on ***DEFINITIONS!***

IF YOU WANT TO WIN THE GAME - YOU HAVE TO PRACTICE CLOSED BOOK!

A brand new closed book exam with 65 of the most often asked troublesome definitions from the Code with an **answer** sheet.

TOM HENRY'S ELECTRICAL TRAINING

Starting Your Electrical Training Instructor Guide Program

There are 9 exams with 160 questions which you can divide up as you see fit based on the allowed class time. The book contains a course layout guide.

The pages are perforated for removal before issuing the book to the student.

This guide contains "quick reference answers" for grading papers quickly. It also contains an "answer section" which explains the answers in more detail citing the page number where it was found and showing the answer in text word for word.

The Instructor Guide includes one Instructor Guide book, two DVDs (approximately 3 hours long with over 35 electrical demonstrations with Tom and Tim Henry) and one ITEM #906 Starting Your Electrical Training Workbook. This program will be a starter to enhance your current training program. The students should be shown the videos first.

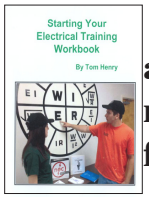
ITEM #904 ... $159.00

Starting Your Electrical Training Workbook

This program was designed to introduce the student to the behavior of electricity which one must first learn to understand how electricity can create enough heat to start a fire.

•The first chapter is ELECTRICITY followed by chapters, •OHM'S LAW •THE CIRCUIT •VOLTAGE DROP •GROUNDING •GROUND FAULT CIRCUIT INTERRUPTER •OVERCURRENT PROTECTION •ARC FAULT CIRCUIT INTERRUPTER •FIXED WIRING •LOOSE CONNECTIONS •EXTENSION CORDS and RECEPTACLES •SUMMARY •HISTORY •EXAM QUESTIONS

ITEM #906 ..... $29.00



For each student, you'll want to purchase a copy of the workbook. The workbook does not contain the answers. The answers will be found in your Instructor's Guide.

The A - B - C's of Electricity

By Tom Henry

With water analogy

This program starts the student with learning the fundamentals of electricity starting with the relationship between electricity and magnetism which is the foundation to learning about electricity thru Chapters on Ohm's Law, series-parallel circuits, the alternator, motors, alternating current, reactance, power factor, transformers, the neutral, three phase, load balancing, and controls.

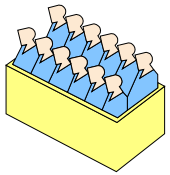
Twelve chapters with dozens of exams with over 675 questions on the fundamentals of electricity including a final exam to test the students learning ability.

Being an electrician is a very demanding career, and the technical expertise required to handle the job means that individuals today tend to be more educated than before. **Education is the key**.

Think about it, if you're the owner of the electrical company, the manager of maintenance in the industry, you are required to provide your employees with safe working procedures. It requires proper training starting with the fundamentals of electricity!

Without proper training, Joe McPartland, my mentor, used to say, "This is insanity in its finest hour!"

Don't put your company in the hands of the jury.



This program starts the student with learning the fundamentals of electricity starting with the relationship between electricity and magnetism which is the foundation to learning about electricity thru Chapters on Ohm's Law, series-parallel circuits, the alternator, motors, alternating current, reactance, power factor, transformers, the neutral, three phase, load balancing, and controls.

Twelve chapters with dozens of exams with over 675 questions on the fundamentals of electricity including a final exam to test the students learning ability.

(continued next page)

An excellent program for your employees to learn the fundamentals of electricity!

For a class with 10 students the total cost would be $645 which would include 10 student textbooks $350 (10 x $35), one instructor textbook $45, one instructor guide 3-ring notebook $75 and 6 DVDs $175 = **$645**. Class with 20 students $895 ($44.75 per student)!

*The A-B-C program includes:

The student's 336 page textbook ITEM #983.....Price $ *note below

•The Instructor's Personal textbook with special notations. 336 pages. ITEM #984.....Price $45

•Instructor's notebook 264 pages ITEM #985.....Price $75
(The Instructor's 3-ring notebook which includes lesson plans for each chapter and with answers in detail to over 675 questions on exams. The notebook also includes the exams for the students to answer to be copied by the instructor and issued on the day of the exam for the chapter worked.)

TRAIN 10 STUDENTS FOR $645! $64.50 per STUDENT!!

•6 DVDs Instructor's Combo package: ITEM #986.....Price $175

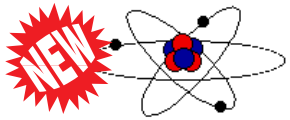
Electricity in Motion, Fundamentals, 1ø Transformers, 3ø Transformers, Control circuits and The Behavior of Electricity.

NOTE:
*$35 per book with 10 students minimum
*$30 per book with 20 students minimum
*Less than 10 students $45 per book

The program is approximately 20 classes, two 3-hour classes per week, for 10 weeks. 60 hours of training. $645 for 10 students = $64.50 per student for 10 weeks of training with *Tom Henry the "The Leader in Electrical Education!"*

Call 1-800-642-2633 Today

TOM HENRY'S ELECTRICAL TRAINING



ELECTRICITY

With Tom Henry

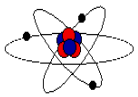
The world turns at the end of a wire

I'm sharing over 64 years of electrical knowledge with you in this program *Electricity* so you don't have to go through what I did to learn the trade.

I've written over 90 electrical books and taught over 20,000 electricians over the years, but this program on *Electricity* is my favorite!

This *Electricity* program is the course designed to help students learn about electricity.

This is also an excellent starter program for the electrical contractor that has a child who would like to continue in the family business. ***Or the vocational instructor starting a class.***



To learn electricity, the invisible force that became the major means of making man the master of the earth, you must first learn the methods of producing and controlling it and learn the rules or laws that apply to the *behavior* of electricity: the *electron* theory.

The program *Electricity* has an eight chapter text book with chapters starting with the atom, static and current electricity, magnetism, DC generator, alternator, turbine, Ohms Law, AC current, 1ø and 3ø transformers, series and parallel circuits, and power and energy.

Each chapter is followed by an exam. After completion of the exam, you may self-grade this exam to determine if you passed and should advance to the next chapter. The *answers in detail* are found in the 80 page Instuctors Guide.

Over 3 hours of video

The Instuctors Guide provides the *Electricity* program format which starts the student first watching a video on the chapter before reading the chapter. Now you can actually see electricity in motion!

The student will witness on video these amazing experiments by Tom Henry. 10 dimes and 10 pennies produce electricity, you'll actually ***see*** current flowing in water, you'll see a 9 volt battery start a fire and learn how, you'll witness Tom Henry holding a fluorescent tube in an electrostatic field of over 400,000 volts and the tube lights up, the power wheel and calculator in animation, water analogy in motion, magnetism in action, a neon arc starting a fire, and many more to view.

ITEM #1007 Electricity Program $195

TOM HENRY'S ELECTRICAL TRAINING

LEARN TO BE AN ELECTRICIAN

OR LEARN TO BE A BETTER ELECTRICIAN!

As the president of CEC, I look forward to welcoming you as a future electrician and I'm excited to be a part of your exciting future. **As of July 2021, we have over 2100 students enrolled with 398 graduates from 50 different states. We also have students from other countries, Turks, Caicos, Virgin Islands, England, Bermuda, West Indies, Canada, Iraq, Africa, Guam, and the Philippines.**

A shortage of skilled workers predicted for early in the 21st century means that employers will have to compete for them.

I'm sharing over 64 years of electrical knowledge with you in these 10 modules so you don't have to go through what I did to learn the trade. If I would have had these modules 64 years ago, I can't imagine where I would be today!

Now with CEC training, you can forget about having to read 200 pages of technical information using all the confusing words that you'd have to look up in the dictionary. CEC starts the student by viewing a 75-120 minute video covering the subject. Next a Module of text with approximately 50 pages with easy to understand pictures is to be read. Following the viewing of the video and the reading of the Module, an exam covering the subject is to be answered and mailed to CEC when completed for personalized grading.

Starting with theory and advancing to Ohm's Law, magnetism, safety and tools, wiring methods, services, motors, inspection, maintenance, troubleshooting, etc., Tom Henry will teach the student through his own personally designed modules and animated videos from point zero to an electrician that will not only know how, but why!

It's not a matter of "getting by," it's a matter of life and death.

You see, during my journey I have witnessed an arm being cut off in a machine in the industry due to a simple wiring mistake. I heard the screams of an electrician as a steel wrench was melted in the palm of his hand from a locomotive battery. I've experienced a brush holder on a main generator being blown through the side of a diesel locomotive. I've been in jury trials as an electrical expert in personal injury and death cases. I've viewed the photos of children burnt to ash from electrical fires.

I personally went through five electrical apprentice programs that offered either classroom or home study. After completing the programs, I knew I could make a program better than those offered. I felt more emphasis should be implemented into the cognitive (why) aspect rather than the psychomotor (how).

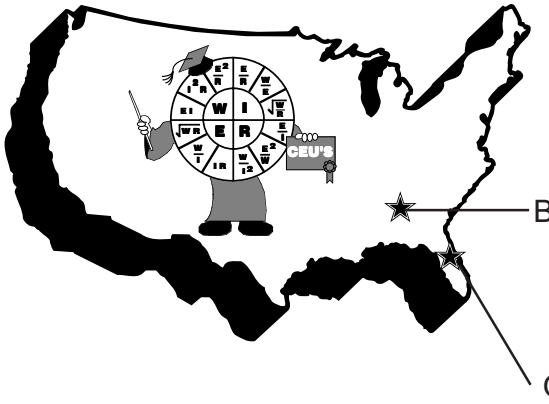
TOM HENRY'S WEEKEND SEMINARS

The Leader in Electrical Education

Tom Henry's Code Electrical Classes Inc.

We teach two-day electrical exam preparation seminars



Continuing Education Units are awarded for the electrical seminars. These units are used for documenting continuing qualifications for renewing licensure, or recertification requirements.

Tom Henry's Code Electrical Classes Inc. offers a two-day SATURDAY & SUNDAY class to prepare the electrician for the exam.

This course will prepare the electrician for the Block electrical exam, Experior, Prometric, ProV, P.S.I., Pearson Vue, I.C.C., Amp, National Assessment Institute exam (NAI), or any city, county, or state electrical exam.

The course will cover Ohm's Law, voltage drop, wire sizing, box-conduit sizing, motor calculations, cooking equipment demand factors, service-feeder sizing, transformer calculations, neutral balancing & sizing, three-phase calculations, commercial service sizing, motor control exam questions, etc.

If you like our books and videos, ask any of the 28,000 past students about our Code classes! We hold classes on Saturday and Sunday so the working man can attend. Lowest seminar prices you'll find and the best education.

For more information on an electrical class tailored to your special needs call **1-800-642-2633**, ask for Tim Henry - Vice President. **We have taught in 21 states, 84 cities since 1979.**

Plan your vacation to visit Orlando, Florida the *Vacation Capital of the World*. When in Orlando stop by and visit our 2 1/2 acre Code Campus for the electrician. The "Green Home" and our office, studio, classrooms, buildings, etc. are powered by solar, wind turbine, geothermal. Visit our bookstore and attend one of our **two-day seminars** held at the Code Campus. **CALL 1-800-642-2633 TODAY!**

Piecing Together a Success Puzzle
By Tom Henry

In school, I was a C student, but the tests I was given did not measure the difference between success and failure. They did not measure "imagination," "determination," "integrity," "sincerity," "intuitive gifts of diplomacy," etc.

Piecing Together a Success Puzzle

In school, I was a C student, but the tests I was given did not measure the difference between success and failure. They did not measure "imagination," "determination," "integrity," "sincerity," "intuitive gifts of diplomacy," etc.

Not having a goal is more feared than not reaching a goal.

Nobody can motivate you but yourself!

Enthusiasm - it's the winner!

You've got to be excited about life.

"Not Just An Electrician"

As written by Pamela Porter Patterson

The circuitous true life journey of 'The' Tom Henry

Discover: What - Tom's journey has accomplished as a world-wide leader in electrical education

When - After 14 years in a management position at Walt Disney World, Tom took a leap of faith starting his own business out of his carport at his home in Winter Park, Florida

Why - Tom's vision to educate became the successful 2-1/2 acre campus known as "Code Electrical Classes, Inc." including his bookstore housing over 70 books that he has authored

Where - is Tom's journey going? How - did one small boy from a small town raised by his mother, venture on without a college degree and become a self made multi-millionaire? Let the journey begin.....

The circuitous true life journey of 'The' Tom Henry

One of my favorite sayings is: "If you love what you are doing, you will never work another day in your life."

When I realized that I have the ability to teach and write books and began down that path, I have not worked another day since then!

The true passion and purpose for my life began when I started teaching. That passion is being able to make a difference in the lives of others.

If you have an opportunity to make things better and you don't, then you are wasting your time on earth.

I want to be remembered as a teacher, as was Alabama football coach Bear Bryant. He could take his team and beat your team, and take your team and beat his team. He knew something about coaching that nobody else knew. He knew how to coach people, and the technique he used was ***coaching the fundamentals*** of the game.

Above The Ceiling is the book for humor. It will make you smile! Tom Henry has compiled 40 years of "one-liners" with graphics. **ITEM #106 ..... $12.00**

Signs, Stories and Smiles Volume One. My qualifications to write a book on humor start at age eighteen when I started serving my electrical apprenticeship under several Irish electricians on the railroad. How's that for a good start! I have always injected humor into my teaching over the years. I have fun in my work.I have a sense of humor and a sense for humor. I like joy; I want to be joyous, I want people to smile, and I want to make people laugh, that's what I want. "**306 pages of smiles!**"

ITEM #448 .....$12.00
